pdfaPilot

The easiest way to make
document archives future-proof

callas pdfaPilot is a plug-in for Adobe® Acrobat®
(Standard and Professional) that makes creating PDF/A compliant files
simple for non-technical users. Designed for organizations generating
a variety of digital documents, callas pdfaPilot ensures your files will
be reliable and accessible in the years to come.

The easiest way to make document archives future-proof

Benefits

- Affordable and easy to use, pdfaPilot enables all users to create PDF/A-1 compliant documents
- Offers clear reports with instructions and detailed explanations
- Provides easily understandable and reliable information on PDF/A conformity
- Can be used immediately without training due to the intuitive user interface - no experts required!
- Minimizes risks during archiving documents by strict compliance to the PDF/A standard
- Fully implements all checks required by the international standard ISO 19005-1:2005 (PDF/A-1)
- Ensures complete fidelity to layout of the PDF files to be archived
- Creates future-proof archives

Key features

- Converts PDF files to PDF/A within seconds, applying all necessary corrections
- Validates PDF files according to PDF/A ISO standard (ISO 19005-1:2005)
- Provides comprehensive reports on all test and correction procedures
- Uses the same test technology as the Preflight plug-in in Adobe Acrobat 9 Pro
- Supports archiving accessible PDF documents according to PDF/A-1a
- Supports both levels of PDF/A conformity (PDF/A-1b and PDF/A-1a)
- All adjustments and corrections are implemented without the loss of information
- Embeds missing or incorrect fonts into PDF files, with full support for PostScript, TrueType and CID fonts
- Offers optional font substitution in case of font embedding restrictions
- Optimizes all color data for compliance to the PDF/A-1 standard
- Adapts comments and form fields to the PDF/A-1 specifications
- Flattens layers according to their visibility
- Adapts image compression to the PDF/A-1 specifications
- Brings document information into line with PDF/A-1 requirements
- Saves newer PDF versions as PDF 1.4 as specified by PDF/A-1

System requirements

Acrobat 7: Standard and Professional
Acrobat 8: Standard, Professional and 3D
Acrobat 9: Standard, Pro and Pro Extended
(use with Adobe Reader not supported)
Windows 2000/2003/XP/Vista
